About This Game

A gravity-based puzzle game that will push your mind to always think and evolve. Hard but fair, with constantly giving new concepts to evolve. For those who want to challenge themselves, and love to think.

Feature List:

The game includes ~20 puzzle-platforming levels.

It allows skipping to any level if desired, although it is recommended to complete levels in order and not looking at the level names.

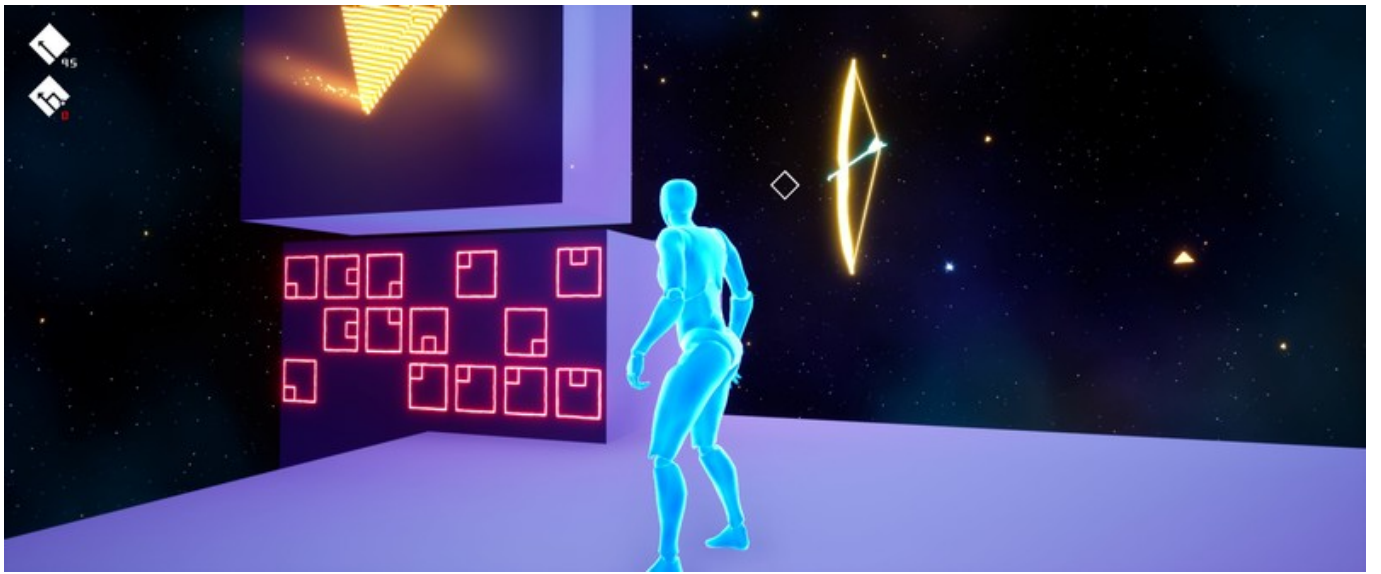

The game is in English.

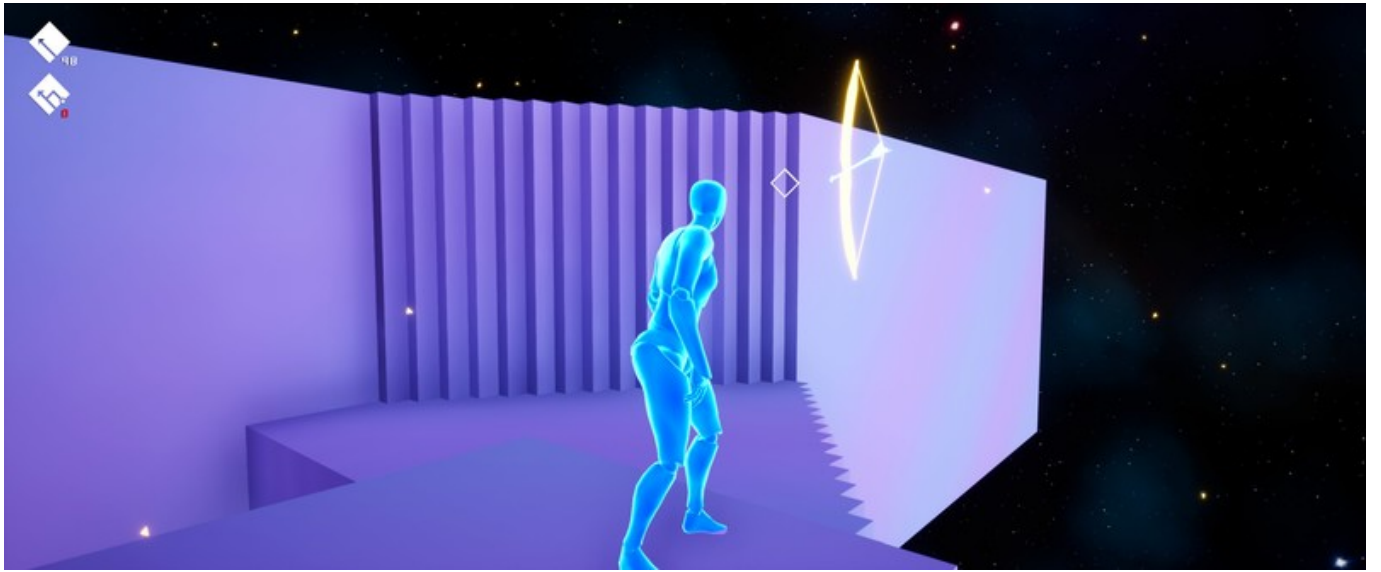

if you liked our game and want to support us making more content, you can donate at our website.
